DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims, 1-6, and 16, drawn to a waste storage device including a waste storage cassette rotator.

Group II, claims, 7-10, drawn to a waste storage device.

Group III, claims 11-13, drawn to a waste storage device comprising a throat.

Group IV, claims 14-15, drawn to a waste storage device comprising a waste cassette chamber lid.

Group V, claim 17, drawn to a waste storage cassette.

2. The inventions listed as Groups I, II, III, IV, and V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I has special technical feature of a waste storage cassette rotator to engage a waste storage cassette for rotation, and a waste storage cassette having a rotator or a formation to engage a co-operating formation of a cassette rotator.

Group II has special technical feature of a throat for passage of enveloped waste, in which an enveloped waste gripper is provided in the throat, the enveloped waste gripper comprising a flexible grip region around an enveloped waste aperture.

Group III has special technical feature of a throat for passage of enveloped waste, in which an enveloped waste guide is provided in the throat to guide enveloped waste towards a waste storage chamber wall.

Group IV has special technical feature of a waste cassette chamber lid including a rotatable tubing cutter and a releasable self-locking detent releasable to allow one uninterrupted full rotation of the cutter.

Group V has special technical feature of a cassette mount projecting from the outer wall to allow rotation of the cassette when mounted.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. A telephone call was made to Roger Stein on 3/3/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.
